

**Description of Equipment:**

Commando DC300Ri S5 - 1  
Alternative drill steel -- Ø35 mm (1⅜") rods  
Altitude -- Less than 3000 meters above sea level  
Drill steel -- Ø32 mm (1¼") rods / R32  
Languages -- English

**Basic Unit**

1 pc Rock drill HL 300, hydraulic, OMSU80  
1 pc Chain feed CF 300 x 14/Pito 1, incl. one set of jaws  
1 pc Boom DB 300 HD, articulated  
1 pc Carrier, rubber-tyred  
1 pc Power pack, diesel driven, hydraulic pumps and on-board compressor  
1 pc Hydraulic system, open center  
1 pc Sandvik SICA, PLC controlled proportional electro- hydraulics, electric,  
radio remote for boom, drilling and tramming controls  
delivery includes also cable between radio and unit  
1 pc Dust collection system DC 410H, hydraulic  
4 pcs Working lights  
4 pcs Hydraulic jacks  
1 Set Manuals, paper copy  
1 Set Manuals, USB memory

**Options**

TIMi for vertical holes and hole depth measuring  
TIMi horizontal holes measurement (requires TIMi)  
Rod handler for one rod  
Kit for alternative steels, each  
Rod thread greasing  
Hydraulic roll-over for DC300Ri  
Led lights 7 pcs  
Fuel powered heater for engine  
Flushing control automatics  
Shut down of suction for water holes  
Water flushing kit without water pump  
Water pump for water flushing kit  
Steel wearing strips for chain feed

**Extra items**
